Boston, 9 Burroughs place,
Sunday Nov. 22.

Dear Mrs. Chapman,

On arriving in the city last evg, I received your parcel of letters, - from which I have taken the Bills of Lading; - and the rest (which appears to be information needed by the examiners of the goods) I have enclosed in a parcel, and have in readiness to go again to you. Shall you soon be in Boston? I ask, as the bills of Lading, in your name are not endorsed, and the C.H. officers may require it. - I have received, through W.P., your request for a Comtee & Board meeting on Wednesday. Would Friday (day after Thanksgiving) answer as well? - I name this, because Abby Foster desires to attend an Exec. Com. Meeting, and in conference with me we had fixed upon the last-named day, - tho' not positively; she left it thus with me - that I was to call the Ex. Comtee together on Friday, if, by Tuesday next, I did not hear to the contrary from her. But, if you prefer to have no delay beyond Wednesday, and will so write me by return mail,

147

I will call the meeting for Wednesday, & we can have another called for Friday; — for I apprehend, from what A. K. H. said to me, that Friday would be as early a day as she could get ready to come.

Will you, therefore, please consider yourself notified to attend a Counter meeting, either on Wednesday or Friday as you yourself may determine the day? If Wednesday, at 10½ a. m., unless you name a different hour.

Do you, or does your brother, know of any person in Weymouth who would like to give employment until Spring to a very steady, sober, faithful, and industrious man, for his board? He has lived with me for the past 7 months. I took him on the strong recommendation of Mrs. L. M. Child. He is past the prime of life, and is moderate in his movements, but he keeps doing, and can accomplish a good share of work & refuses no hard work. He is fond of his pipe of tobacco, but has no other "bad habits" I believe — is strictly "temperate". —

I have a letter to-day from Miss Esther, which I want that you should see.

I send you, dear Mrs. C., at last, my ~~blank of~~ few words for the Liberty Bell. I hope they are not quite too late; but, if they are, I alone am in fault, — But there are mitigating circumstances.

Ever truly Yours

Sam'l Long fr.

S. May Jr
